BACKGROUND

As founder and President of L P Consultants, LLC, Leonard Schuckman Jr. brings 40 years of safety and health assessment and management experience to the company.

Mr. Schuckman has performed a variety of consultation services for large and small companies. His expertise covers such areas as on site safety audits, safety program development, OSHA and DOT regulatory compliance, right-to-know programs, human resource policy development, insurance and risk management administration, and employee training.

Before L P Consultants, Mr. Schuckman was Director of Safety, Risk Management/Insurance and HR for 17 years with the last 7 years as Vice President of Operations for an energy Company. He was responsible for daily operational functions of the company, corporate safety and health, managed HR program, managed property, casualty, workers compensation and health insurance programs, and was responsible for profit and loss of the company. Prior to that, he was self-employed performing safety-consulting services to energy, construction and the manufacturing sector. From 1968 and for 12 years thereafter he was a Safety Consultant for one of the major insurance companies specializing in construction safety work on coal fired and nuclear power plants and mining process facilities throughout the mid west. Similar safety and accident prevention work was performed with large manufacturing and fabrication operations in this same geographic area.

His diversity and knowledge has brought him national recognition in the safety and health fields. Thanks in part to his understanding of regulations and standards as

well as his ability to communicate and work with government, Mr. Schuckman has spoken at conferences on safety and health, chaired numerous committees, been appointed to administrate special industry or association task forces, participated in state regulatory statute changes pertaining to Kansas Department of Transportation and Kansas Workers Compensation. He has also been a force in the Kansas Safety and Health Conference for the past twenty years serving as co-chairman and chairman of the working and planning committees.
