

# Web Site Development

## AN INTRODUCTION

### HTML – Trying It Out

#### Exercise #6

This exercise will give you an opportunity to try out some of the basic tags covered in the class lessons so far.

1. Open the template.htm document you created in Exercise 5 and save it as **exercise6.htm**
2. Copy and paste the text provided below between the <body> ... </body> tags of the page you saved in Step 1. Once you've done that, make the text appear as it states.

```
<!-- START COPY HERE -->
```

Make the word bold in this line appear as bold.

```
<br>
```

Make the word strong in this line appear strong.

```
<br>
```

```
<hr>
```

Make the word italic in this line appear as italic.

```
<br>
```

Make the word citation in this line appear as a citation.

```
<hr>
```

```
<!-- STOP COPY HERE -->
```

3. Copy and paste the text provided below beneath the text you entered in Step 2. Once you've done that, make the text appear as it states and add the html required to display each of the available heading sizes.

```
<!-- START COPY HERE -->
```

This is the smallest heading

```
<br>
```

This is the largest heading

```
<br>
```

```
<hr>
```

```
<!-- STOP COPY HERE -->
```

4. Copy and paste the text provided below beneath the text you entered in Step 3. Once you've done that, make the text appear as it states.

```
<!-- START COPY HERE -->
```

Make the word subscript in this line appear as subscript.

```
<br>
```

Make the word superscript in this line appear as superscript.

```
<br>
```

```
<hr>
```

```
<!-- STOP COPY HERE -->
```

5. Copy and paste the text provided below beneath the text you entered in Step 4. Once you've done that, make the changes required so that the text appears as it states.

```
<!-- START COPY HERE -->
```

```
<font>This text has a size of 2</font>
```

```
<br>
<font>This text has a size of 4</font>
<br>
<font>This text has a size of 6</font>
<hr>
<!-- STOP COPY HERE -->
```

6. Copy and paste the text provided below beneath the text you entered in Step 5. Once you've done that, make the changes required so that the text appears as it states.

```
<!-- START COPY HERE -->
<font>This text has a color of blue</font>
<br>
<font>This text has a color of red</font>
<br>
<font>This text has a color of green</font>
<hr>
<!-- STOP COPY HERE -->
```

7. Copy and paste the text provided below beneath the text you entered in Step 6. Once you've done that, make the changes required so that the text appears as it states.

```
<!-- START COPY HERE -->
<font>This text has a font-face of Arial</font>
<br>
<font>This text has a font-face of Times</font>
<br>
<font>This text has a font-face of Courier</font>
<hr>
<!-- STOP COPY HERE -->
```

8. Copy and paste the text provided below beneath the text you entered in Step 7. Once you've done that, make the changes required so that the text appears as it states.

```
<!-- START COPY HERE -->
<font>This text has a font-face of Verdana, color of silver and size of 5</font>
<br>
<font>This text has a font-face of Georgia, Times New Roman, color of orange and size of 3</font>
<br>
<font> This text has a font-face of Arial, Helvetica, sans-serif, color of aqua and size of 2</font>
<hr>
<!-- STOP COPY HERE -->
```

9. Finally, locate the body tag and add the attribute bgcolor and set its value to a color of your own choosing.

10. When you are completed, you should have a finished page like the one illustrated below:
