HTML – Basic Formatting

Exercise #7

For this exercise, you will be formatting several blocks of text into paragraphs etc.

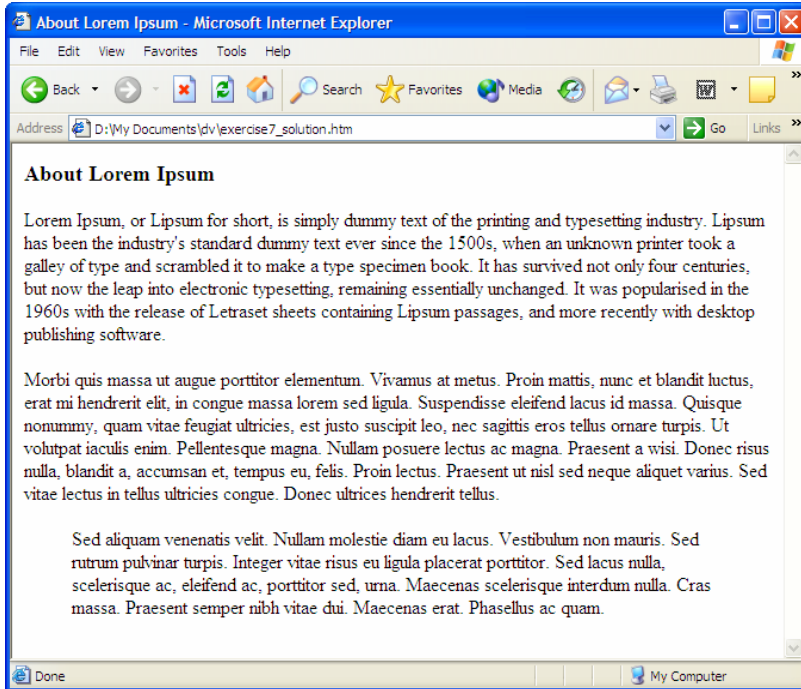

1. Open the template.htm document you created in Exercise 5 and save it as **exercise7.htm**
2. Enter the following between the <body> ... </body> tags.

Lorem Ipsum, or Ipsum for short, is simply dummy text of the printing and typesetting industry. Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only four centuries, but now the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Ipsum passages, and more recently with desktop publishing software.

Donec ultrices hendrerit tellus.

Sed aliquam venenatis velit. Nullam molestie diam eu lacus. Vestibulum non mauris. Sed rutrum pulvinar turpis. Integer vitae risus eu ligula placerat porttitor. Sed lacus nulla, scelerisque ac, eleifend ac, porttitor sed, urna. Maecenas scelerisque interdum nulla. Cras massa. Praesent semper nibh vitae dui. Maecenas erat. Phasellus ac quam.

3. Using your knowledge of HTML tags, format the text so it appears in the browser window as illustrated below. Remember to add the heading "About Lorem Ipsum" as well as including that as the title for the page.
